NOTICE OF PUBLIC COMMENT PERIOD  
REQUEST FOR COMMENTS AND PUBLIC WORKSHOP  
[Revised March 22, 2023]**

**DRAFT ENVIRONMENTAL ASSESSMENT (EA) FOR TWEED NEW HAVEN AIRPORT**

In accordance with the National Environmental Policy Act (NEPA), the Tweed New Haven Airport Authority is releasing a Draft Environmental Assessment (EA) that will be available for public review and comment. The EA addresses the foreseeable environmental, social, and economic consequences associated with the proposed extension of Runway 02-20 and construction of a new airport terminal (“East Terminal”) and associated facilities at Tweed New Haven Airport. The analysis of potential environmental impacts in the EA was conducted in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures.”

The purpose of the Proposed Action is to provide airfield and terminal area facilities to accommodate existing and reasonably foreseeable aircraft operations and passenger volumes. The Project would address operational constraints through the runway extension and replacement of existing terminal with a new East Terminal. This would include associated landside (parking and roadways) infrastructure and aircraft parking areas in a manner that efficiently utilizes the available land within the airport developed footprint.

The document is available for review during a 60-day comment period (extended from 45 days) beginning March 2, 2023 at the following locations, during normal business hours:

The document will be available for review beginning on March 2, 2023. Comments received on the Draft EA in writing on or before the close of business on May 1, 2023 (extended from April 16), will be considered and addressed in the Final Environmental Assessment (FEA) for the proposed action. Based on a review of the FEA, the FAA will determine the significance of potential impacts and either issue a Finding of No Significant Impact (FONSI) or require a more detailed study.
